Award Term II Equipment Subtotal: (Total of CLINS 2100 through 2158)					
2159		Material / Other Direct Costs / Subcontracts			\$23,406,748.00

2160		G&A / Material Handling			
Award Term II Labor and Equipment Subtotal:					

**4. The Section B clause entitled "EQUIPMENT" has been modified. The text is as follows:**

1. The quantities specified in Clause B.2, Fixed Rates For Services - - Indefinite Delivery/Indefinite Quantity Contract, heretofore known as the 'schedule' are estimates only. The estimated quantity for each line item may be greater or less than the amount specified as long as the contract ceiling is not exceeded.

2. All manufacturer's or brand names are included for reference purposes only. Equivalent, "or equal", manufacturer or brand name equipment items are acceptable.

3. Equipment rates set forth in the schedule shall be inclusive of all expenses including operation and maintenance costs, depreciation and any other acquisition costs, repair costs, ~~fuel~~ and profit. **(Fuel will be charged as an ODC.)** All equipment shall be charged at the daily rate. The equipment rates shall apply to equipment whether the equipment is rented or owned by the contractor. The rates are exclusive of operators. All equipment shall be provided in good working order and ready for use prior to start of work (equipment maintenance and fueling shall be performed during non-working hours); routine maintenance and any repairs necessitated by equipment breakdown or failure shall be accomplished in a timely manner and at the contractor's expense. No charges shall be made to the Government for repairs, maintenance or labor costs/hours performed on or off-site. No charge for equipment usage shall be allowed during equipment "downtime" for fueling, repairs, maintenance, etc. Equipment will be paid at the daily rate only when it is used on that date for its intended purpose. There are occasions when equipment will be paid at the daily rate when it is not used on the date for its intended purpose, such as when the equipment is idle awaiting sample results or due to weather delays. Payment in these instances will only be when it is approved in advance by the OSC or CO. Equipment items that are not listed in the schedule shall be provided and reimbursed at cost, as an other direct cost item. Repairs or maintenance necessitated by extraordinary circumstance beyond the control of the Contractor and outside the normal course of doing business and not due to negligence or carelessness on the Contractor's part, may be allowed as a direct charge at the discretion of the OSC and/or Contracting Officer. This approval by EPA must be documented on the 1900-55 or other mechanism verifying approval. In such cases, damaged equipment will be evaluated based on the following general guidelines: 1) issues raised by the Contractor prior to damage or actual usage, 2) extraordinary circumstances/conditions, 3) emergency conditions, and 4) carelessness/negligence.

4. The contractor shall coordinate with the OSC to utilize equipment resources in the most cost effective manner. Due consideration shall be given to the known requirements of the removal action in order to reduce equipment idle time.

5. If after the OSC informs the contractor that the equipment is no longer needed at the site and the contractor elects for his own convenience to store the equipment on-site, the equipment shall not be charged to the contract.

6. When the contractor elects to remove an item of equipment from the site, (i.e. weekends, holidays) during the period of performance of the task order, such removal shall be permitted subject to the consent of the OSC provided that the equipment is returned to its location for use when required by the OSC. No charges shall be incurred by the Government while the equipment is off-site.

7. Mobilization/Demobilization

a. For the purposes of this contract, mobilization is defined as the point in time when the piece of equipment, which has been ordered by the Government, leaves the Contractor's primary mobilization point. Demobilization is defined as the point in time when the piece of equipment, which has been ordered by the Government, is returned to the Contractor's primary mobilization point. The mobilization and demobilization charges shall be reasonable (based on the location of the site to the Contractor's mobilization point) and shall not exceed 48-hours.

b. The contractor's primary mobilization point for equipment will be determined by the location of each individual task order. The contractor agrees to make every effort to mobilize equipment from the nearest available location to the cleanup site. However, in no event shall the charge for mobilization from outside Region 5 exceed what the charge for mobilization point within Region 5. Once, mobilized, the contractor may elect to substitute identical equipment types for what is already on site. However, EPA will not pay any associated mobilization charges for any such items.

**The contractor's primary mobilization point is: \_\_\_\_\_ .**

**NOTE: If work is interrupted for a holiday or weekend, it is not a demobilization.**

8. The contractor will only be reimbursed for the equipment item that meets the EPA's minimum needs. For example, if the EPA requires, a two-wheel drive pickup truck, and the contractor provides a four-wheel drive pickup truck, the contractor will only be reimbursed at the fixed rate for a two-wheel drive pickup truck. For RCMS purposes, the contractor will enter the hours utilized for the equipment item under the RCMS Number for a two-wheel drive pickup truck.

Where items of equipment are shared at concurrent or consecutive removal actions between two or more sites on the same day, the contractor shall prorate the daily rates based upon the percentage of usage at the individual sites. For purposes of this clause, concurrent and subsequent removal actions sites are defined as sites within a 100-mile radius of the original site.

9. No standby rates are authorized under this contract. The EPA will not order equipment to be on-site or off-site, in a standby manner.
